

Doctor's Day Celebration

"Medicines cure diseases, but only doctors can cure patients."

Little Flowers International School celebrated Doctors' Day on July 1, 2024, with a series of meaningful activities.

A special assembly for pre primary classes was conducted in the Nursery Play Area, featuring role plays where teachers acted as doctors and students as patients. Students brought first aid boxes, and a Presentation on doctors was shown.

Students also engaged in role plays, poem recitation about doctors, show and tell with medical equipment, and creating slogans with flashcards, all aimed at honoring and expressing gratitude towards doctors.

School Vice Principal, Mrs. Bhavna Arora also talked about the importance of doctors and instilled a sense of respect and appreciation for doctors in students, educating them about the vital role doctors play in society and encouraging them to value health and medical care from a young age.
