

ISA ACTIVITY-6

GLORIOUS DANCE AROUND THE WORLD (COLLABORATIVE)

Dance is not just a part time activity. It is a passion. It is lifelong devotion for some. The students learnt about the origins of the different dance forms and also about the popularity in respective countries. An enjoyable dance practice session was organized under ISA. The students of class V and VI did simple dance steps of India, Nepal, Malaysia and Japan with the partner country Nepal. The dance steps were practiced by the students under the guidance of dance teacher.

The objective of scrapbook activity was to give the students an inside peek into the various aspects of the dance forms that grace various countries. The students had fun and learnt something creative along the way. They had gala time learning and developing new things in an innovative manner.

The little fun time activity helped them to teach about India's as well as world's culture by making learning a fun. This enriched their awareness about other people's tradition.

The students efforts were highly appreciable. Fashion show activity improvised and evolved the students. The details of the costumes used in India, Malaysia, Japan and Nepal and other information like origination were also shared.

The wonderful journey of ISA that we embarked upon led us to collaborate with Nightingale International School in Nepal. We Skype with the amazing school with the entire activity supervised

by the concerned teachers of both the schools. The students got the rare opportunity to talk to children living beyond the borders. The students realized the hard work and labor that goes into the performing arts. Our students thoroughly enjoyed themselves while interacting with the students of with “Nightingale International School”, understanding their views on different things.
